

# Blockchain Technology

Master and Bachelor Theses at the Bosch IoT Lab (HSG & ETH)

We are always looking for **excellent students** who want to work on blockchain related topics – previous experience with blockchain is great but not necessary

We investigate blockchain related topics since over three years in our research group and provide a **unique skillset of technical and business experience** – you will be able to learn a lot and collaborate with specialists in this emerging industry

Specific **subjects are changing quickly**, as is the whole blockchain space – contact me for currently open topics or propose your own subject in a short proposal

## Interested?

Send me a mail detailing 1) your experience with blockchain and 2) your motivation and 3) including all your university grades to [mchanson@ethz.ch](mailto:mchanson@ethz.ch)
